Introduction

English language teaching, learning and assessment – an integrated approach

As world leaders in language assessment, we provide a comprehensive range of assessments that are recognised for work and study purposes. For many learners these lead to enhanced life experiences, as we are able to provide trusted and reliable proof of their achievements.

Our mission, however, extends far beyond the provision of assessment and encompasses the wider educational and social impact of language learning.

Around the world, we advise governments, regional education authorities and schools on setting the right levels of language ability for their needs. We also assist with curriculum development and design to establish a route for teachers to follow that will bring learners up to the required level of English.

As good teaching is so crucial for good learning, we have a complete suite of teaching qualifications that help people both enter the English language teaching profession and progress their careers. In 2011 we have widened access to CELTA, our initial teacher training qualification, by introducing the Cambridge CELTA Course Online.

This catalogue reflects our integrated and cohesive approach to language teaching, learning and assessment. In it you will find a comprehensive range of examinations, support and preparation products which cover all areas of language learning, from placement testing to teaching and assessment.

Our range of exams and materials that support them have grown. New additions to this edition of the catalogue include:

• the new certificated version of BULATS which is accepted for applying for work and study visas in the UK
• the Cambridge English Placement Test, a quick and reliable tool to help schools identify the existing English ability of new students
• online courses and practice tests.

Together with Cambridge University Press, we have created a new team: Cambridge Exams Publishing. This brings together our joint expertise in language assessment and educational publishing to provide you with a wealth of official preparation materials. The catalogue now reflects an extensive range of coursebooks, practice tests, preparation courses and other resources from both our organisations that will help people prepare for Cambridge English examinations.

By offering teachers and their students greater support we intend to give each learner the opportunity and tools to enjoy the benefits of learning English and achieve their potential in life.

*More dates, more flexibility, more choice*

In addition to standard paper-based exams, Cambridge English exams are increasingly available in computer-based and online format. This means that candidates have more choice about when and how to take an exam.

Computer-based tests offer more exam dates throughout the year and permit shorter registration times - allowing candidates to register as little as a week before taking their test.

Some of our exams are also available in versions featuring content particularly targeted at the interests and experience of school-aged learners.

The table below gives you useful information about the formats in which each exam is available. A separate table for teaching qualifications can be found on page 32.

Achieve your ambition in international business

Cambridge English: Business Preliminary, also known as Business English Certificate (BEC) Preliminary, is the qualification for professionals and learners who want to operate at an intermediate level in an international business environment.

The test gives an in-depth assessment of a learner’s ability and fluency at Level B1 in a business context. This is the qualification for learners to demonstrate their growing confidence in using Business English at an independent level.

Cambridge English: Business Vantage tests a learner’s ability to: accurately take and pass on most messages at work, present arguments and opinions to a limited extent, understand the general meaning of a report even if the topic is unfamiliar, and write a non-routine letter where it is restricted to matters of fact.
Cambridge English: Business Higher is the qualification to help professionals and learners develop ability and fluency at Level C1 in a business context. This qualification is also known as Business English Certificate (BEC) Higher.

The test gives an in-depth assessment of a learner’s ability to operate at an advanced level in an international business environment.

Cambridge English: Business Higher tests a learner’s ability to deal with unpredictable questions, argue a case effectively and specify needs precisely, write a report that communicates the desired message, and understand most letters and reports.

For the online Speaking and Writing tests, scores are reported at the appropriate CEFR level.

**New: Certified BULATS Online**

People who need a formal certificate to prove their achievement can now take the new Certified BULATS Online Test. The Certified BULATS Online Test is accepted by the UK Border Agency for visa applications for living and studying in the UK.*

**IELTS Blended or 100% Online Courses**

**IELTS Online Courses**

Provide authentic and practical practice for test takers.

Cambridge ESOL, one of the IELTS partners, has developed two blended learning courses and two self-study 100% online courses to help prepare candidates for the IELTS test. Flexibility is a key element of the IELTS Academic Blended Learning Courses. Tuition providers can adjust the mix of online and classroom study according to the needs of learners. The courses have been designed so that higher band learners usually receive less classroom support and more online study than lower band learners. All courses are of 100-hour duration and organised into four modules: Reading, Writing, Listening and Speaking.

The self-study modules can be bought and used individually.

The IELTS Self-study Course is ideal for people with busy lives who find it hard to make time for classroom study. The online courses are flexible, letting learners study what they want, when they want.
